

CELEBRATION PAPER & PLASTICS:		Environmental Policy Statement	
Policy: ENVIR002	Issue date: Mar 2017	Revision: 07	Approved by: bv

ENVIRONMENTAL POLICY

Celebration Paper and Plastics is committed to:

- a) Continual improvement of our environmental performance, including prevention of pollution and ongoing environmental improvement programmes. Environmental improvement programmes include defined targets, method, resources & measurement of improvement;
- b) Complying with relevant environmental legislation & regulations;
- c) Continual improvement of the environmental management system to enhance environmental performance including the recycling of waste, promoting renewable sourcing of raw materials, particularly wood-fibre products and working with our suppliers in maintaining a closed-loop FSC chain of custody;
- d) Being a responsible member of the community;
- e) Ensuring that Environmental Management is documented, understood, implemented & maintained at all levels in the organisation;
- f) Making available the Environmental Policy to any interested parties.

Our most significant positive environmental impacts are reducing and eliminating waste, promoting renewable sourcing of raw materials, particularly wood-fibre and energy, and working with our suppliers in maintaining a closed-loop FSC chain of custody.

The policy, aspects and procedures described in the ISO & BRC Manual conform to the requirements of the British Standard for Environmental Management Systems BS EN ISO 14001.

Signed: _____
Mr C N Burton, Managing Director
